

DataSheet

AFFF (Aqueous Film Forming Foam) extinguishers offer some additional benefits over water units. Not only do they typically have higher fire ratings, but they are also suitable for Class B fires involving flammable liquids.

FOAM FIRE EXTINGUISHERS

One of the most common types of fire extinguisher, a foam fire extinguisher can be used to fight fires that involve flammable solids and liquids such as wood, paper or petrol. Ideal for office environments, hospitals and schools, owning a foam fire extinguisher could be the difference between a minor fire and catastrophic devastation.

Technical Specification	FS6E
Capacity	6 litre
Fire Rating	21A 183B
Extinguishing Medium	AFF Foam
Working Pressure	15 Bar at temp 20°C
Temperature Range	+5-+60°C
Cylinder Material	Steel
Pressuring Gas	Nitrogen

COMMANDER EDGE

PRODUCT CODE
FS6E

PRODUCT GROUP
CommanderEDGE Extinguishers

DIMENSIONS (mm) (height x width x diameter)
502 x 197 x 160

WEIGHT
9.3kg

- Fully CE marked
- Plastic base for protection
- Corrosion-resistant finish
- Polyethylene internal lining
- Brass spray nozzle
- Manufactured in Europe

 029 2086 8333

 029 2085 0627
